

SMASK FROM STOLT®

REUSABLE | ANTIDUST | ANTI POLLUTION | ANTI BACTERIA

Facemasks help limit the spread of germs. When someone talks, coughs, or sneezes they may release tiny drops into the air that can infect others. If someone is ill face masks can reduce the number of germs that the wearer releases and can protect other people from becoming sick.

SMASK Masks are the basic anti-pollution masks which has 4 layers that will filter out more than 95% of the pollutants which includes the PM 10, PM 2.5, PM 0.3, viruses, bacteria and gas pollutants. It also protects the wearer's nose and mouth from splashes or sprays of body fluids. It is ideal for every house in day to day activities as well as doctors, surgeons, dentist, dental assistance, nurses, landscapers, contractors, plumbers, exterminators, nail technicians and many more.

These masks are great – specifically, because they have great designs, are comfortable, in expensive, stylish and have good filters. It's great for physical activities – and is lighter on your lungs as compared to other masks, These are common masks that one can order online www.stolt.in - get easily – affordable and do the job.

POLLENS

DUST & ALLERGENS

AIRBORNE IRRITANTA

SANDING & DIY

HARMFUL PATHOGENS

THE PRIMARY FILTER LAYER

The first layer of our air pollution mask is designed to filter our larger particles such as dust and PM10. The air mesh is a fabric comprising of a layer which releases moisture, an interior layer for air flow and a third outer layer for heat dissipation. This fabrics are are used for better airflow and cushioning.

THE SECOND FILTER LAYER

The second layer of the pollution mask is designed to block particulate pollution such as PM2.5. It is tested to filter particles as small as PM 0.3. this filter has one layer of three-ply non-woven melt-blow polypropylene and one layer of 5 layered 100% Polypropylene nonwoven SSMMS fabric.

THE LAST FILTER LAYER

Smask innermost or last layer is a Microfiber fabric as it extremely breathable. Extremely absorbent and dries quickly and because of its ability to wick moisture.

how to use a mask

Before putting on a mask, clean hands with alcohol-based hand rub or soap and water.

Choose SMASK for your best and better protection which safeguards you and your family

Cover mouth and nose with mask and make sure there are no gaps between your face and the mask.

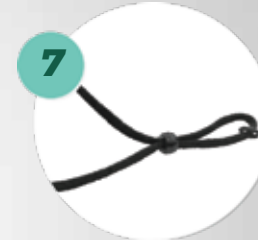

Avoid touching the mask while using it.

Pull the strings over your ears, cover your nose, mouth & chin with the mask properly

Adjust the bendable " NOSE CLIP " to avoid leakage & to ensure the perfect fit

Once the mask is place, pull the strings of earloop & tighter so that mask fits fine & comfort

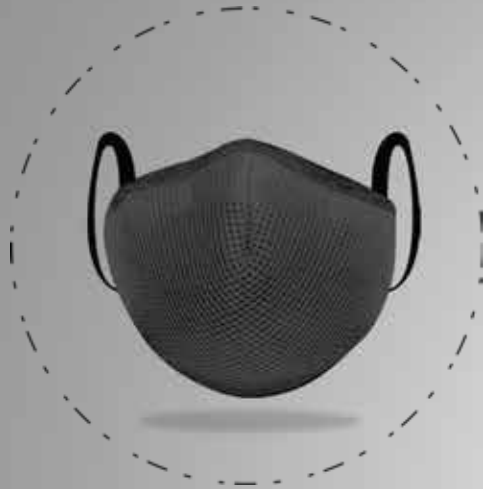

Precautions :

- * Wash your hand appropriately with cleanser before wearing and take off the mask**
- * Wash the mask according to wash care after each utilization**
- * The Mask is for singular use just, not to be imparted to others to prevent infection/contagion**
- * Change the mask if troublesome in relaxing or respire**
- * Store the mask in a dry spot and away from the daylight**
- * Dispose of the mask after 30 uses**

Warning :

- * Utilization directions and precautionary measures ought to be followed as recommended**
- * Improper use of the mask may cause wellbeing hazard**
